

A NEW POST TRADE MODULE IS NOW AVAILABLE!

By always thinking about how we can help our clients in their FX processes, we present a **new modality** within FX Pulse: **The Post Trade module**.

This feature was designed to improve convenience of international payments, **ensuring efficiency and speed** - and more importantly, in a **simple and safe form**.

Through the Post Trade module, we offer our clients a **100% digital** FX process, in which it will be possible to settle FX deals, send supporting regulatory documentation and instruct payment orders - All these features in **one unique platform!**

See how simple it is:

Step by step to Instruct Trades in Post-Trade:

Citi FX Pulse

CitiFX Pulse is a complete and digital platform for FX processes management. It is a Citi global tool available in about 80 countries.

Simple Implementation

CitiFX Pulse is web based. In other words, the platform requires only access to an internet browser. There is no need to download any software.

Personalized Tool

User experience through the platform may be customized to fit different priorities and needs. Users are able to: register beneficiaries with whom they will trade; define different entitlements between profiles; limit volume or currency pairs to operate; and more.

Efficiency and Safety

It is possible to generate several real time reports, including trade records. Furthermore, the platform is an encrypted channel that requires login and password, making communication and information exchange between bank and clients safer.

To be part of this story and to enjoy efficiency and speed in your FX processes, please reach out to your Relationship Representative or send an e-mail to canais.tesouraria@citi.com. They will provide further information.
